

A nonrefundable application fee of \$175 must accompany this application.

Application for At-Grade Crossing

South Dakota Department of Transportation

Office of Air, Rail and Transit

Questions? Contact the S.D. Office of Railroads at (605) 773-5037 or at address below.

Applicant information

Nearest city, town or village	Applicant's full name and address	Date
State		
Phone		
Corporation—If yes, in what state is it incorporated?		
Individual—If yes, under what firm name is business conducted?		
Partnership—If yes, please provide names of all partners		

Crossing information

What is the purpose of the crossing?		
Will the crossing be temporary or permanent?	Temporary	Permanent
If temporary, how long will it be used?		
Will the crossing be public or private?	Public	Private
If the crossing will be public, identify the road or highway involved		
Which entity (town, county, state) is responsible for road or highway?		

Certification

A drawing showing approximate distance from the nearest switch, bridge, culvert or some fixed location, but not from a mile board, must be submitted with this application. Also, complete engineering plans for the construction of the crossing must be submitted with this application.

It is understood that the applicant will execute a formal agreement covering the crossing when presented, and that an annual fee, as determined by the Office of Air, Rail and Transit, will be charged under the formal agreement. It is further understood, if the crossing is to be temporary, the applicant will provide flagmen if required by the Office of Air, Rail and Transit. Also, that applicant will furnish all necessary material and install the crossing at the applicant's sole expense under the supervision of the Office of Air, Rail and Transit, or reimburse the State's operator for costs incurred by the operator for crossing installation.

Mail to:

S.D. Dept. of Transportation
Office of Air, Rail and Transit
700 E. Broadway Ave.
Pierre, SD 57501-2586

Applicant signature

Date

Note: All applications for crossings are subject to review by the Staff Engineer of Air, Rail and Transit. Suitability of crossing plans will be determined on the basis of crossing location, design and purpose.
